DESIGN EXPERIENCE

ShareWare App Interaction Design: [Academic Project]
Summer 2022

Found design problems through ethnographic research, field interviews, and co-creation workshops to find design problems for a Vancouver-based reusable take-out container company. Establishing a design problem backed by research, User Persona's, Journey Maps, and Storyboards were created to communicate the design solution.

Branding & Identity: [Academic Project]
Spring 2020

Created logos to establish corporate identity by using correct contrast and Gestalt design principles in a Graphic Design course. Brainstormed by creating brain maps and brain dumped for various sketch ideas. The final logo chosen was then transferred to digital mediums through Adobe Photoshop and Illustrator. Colours of the logo were in a greyscale pallet that held sensible contrast for real-life applications.

WORK EXPERIENCE

Digital Media Assistant: [Beedie School of Business]
Fall 2021

Supported ninety classes with lecture room audio and visual equipment. Created 30+ successful online courses in Canvas for graduate students. Collaborated with staff to create documents and videos that assist faculty members.

Server: Sango & Kisoji
Fall 2018 - Spring 2020

Developed teamwork and multi-tasking skills to successfully provide excellent customer service under fast-pace situations. Communicated clearly to successfully relay customer needs to the kitchen staff.
